

DESCRIPTION OF A STUDY COURSE – SYLLABUS

Title of a course	Ecology				
Head of course Lecturer	PhD Melita Zec Vojinović, Senior Lecturer PhD Vesna Kovačević, College Professor				
Study programme	Professional undergraduate study Winemaking				
Status of a course	Obligatory				
Year of study	1.	Semester	I	ECTS credits	5
Teaching plan (L + E + S+ Pr)	(3+0+0+0)				
Goals of a course					
Introduce students to basic ecological concepts, ecosystem functioning, ecosphere and human impact on parts of the ecosphere. Introduce students to the ecological challenges of today and the basic guidelines of sustainable development, sustainable and organic agriculture.					
Conditions for enrolling course					
No conditions					
Learning outcomes on a level of a study programme which includes course					
Outcome 1: Plan the planting of vineyards with regard to the ecological and agro-climate conditions of the production unit. Outcome 3: Perform the care of the grapevine plantations in accordance with the cultivation form and maintain the vineyard in view of the technological and ecological conditions of production Outcome 4: Determine the economically significant grapevine pests and implement preventative and curative methods of plant protection.					
Expected learning outcomes on a level of a course					
1. Comment on basic ecological concepts, functioning and state of the ecosystem. 2. Assess the consequences of anthropological activities on the ecosphere and its parts. 3. Analyse agricultural production systems based on ecological concepts and principles 4. Propose environmentally friendly cultivation methods for agricultural grapevine production systems 5. Apply environmentally friendly protection measures for agricultural production systems of Mediterranean crops.					
Content of a course					
Definition, history and significance of ecology. Basic ecological terms: biotope, population, biocenosis, ecosystem. Matter cycles and energy flows in ecosystem. Food chains. Ecosphere and its components. Man's impact on environment. Biosphere. Biodiversity and agents of its reduction. Sustainable growth and ecological efficiency. Abiotic and biotic interacting components. Biological tolerance. Agrosphere. Critical points of agrosphere. Organic agriculture. Agro ecological indicators. IFOAM. Ecological agents of pest control. Vineyard as ecosystem. Main abiotic and biotic factors affecting growth of vine. Ecological control of insects and diseases in vineyard. Assessment of ecological acceptability in treating vine with various insect controlling agents.					
Teaching modes	<input checked="" type="checkbox"/> lectures <input type="checkbox"/> auditory exercises <input checked="" type="checkbox"/> seminars and workshops <input type="checkbox"/> distance learning <input type="checkbox"/> field classes		<input checked="" type="checkbox"/> individual assignments <input type="checkbox"/> multimedia and network <input type="checkbox"/> laboratory <input type="checkbox"/> supervisor's work <input type="checkbox"/> other _____		
Comments					
Students' obligations					
Required class attendance. Students must have a notebook of completed activities (assignment, homework) that are reviewed and scored.					
Grading, evaluation and monitoring of students' work continuously during lectures and exams					

Grading is based upon evaluation of course's learning outcomes' adoption. Grading is performed continuously during lectures and/or during exam, in compliance with the provisions of Regulation on the assessment of students.

Continuous check-up:

Outcomes	Pre-exam I	Presentation	Assignment	Home assignment	Threshold	Max
Outcome 1	18	10	4		16	32
Outcome 2	18	10	2		15	30
Outcome 3			16		8	16
Outcome 4		10	2		6	12
Outcome 5				10	5	10
Percentage of ECTS	2	1,5	1	0,5		
Total	36	30	24	10	50	100

A student has passed the exam if he has acquired a percentage of credits for each learning outcome higher or equal to defined threshold.

Exam term:

Outcomes	Written exam	Oral exam	Max
Outcome 1	26	6	32
Outcome 2	24	6	30
Outcome 3	12	4	16
Outcome 4	10	2	12
Outcome 5	8	2	10
Percentage of ECTS	4	1	
Total	80 %	20 %	100 %

A student has passed the exam if he has acquired a percentage of credits for each learning outcome higher or equal to defined threshold.

Grading:

A student has passed the exam if he has acquired at least 50% of anticipated credits of a specific learning outcome.

If a student has passed learning outcomes of all courses, the accomplished credits (percentages) of all passed learning outcomes are being added, while the final grade is defined upon following table:

Range of credits (percentages)	Numerical grade	ECTS grade
90,00 – 100,00	Excellent (5)	A
75,00 – 89,99	Very good(4)	B
60,00 – 74,99	Good(3)	C
50,00 – 59,99	Sufficient (2)	D
0,00 – 49,99	Insufficient (1)	F
