

DESCRIPTION OF A STUDY COURSE – SYLLABUS

Title of a course	Growing of vegetables				
Head of course	PhD Slavica Dudaš, Senior Lecturer				
Study programme	Professional undergraduate study Winemaking				
Status of a course	Elective				
Year of study	2.	Semester	III	ECTS credits	4
Teaching plan (L + E + S+ Pr)	2+1+0+0				
Goals of a course					
Introduce students to the importance and possibilities of sustainable vegetable cultivation, species, affiliations to botanical families, concept of crop rotation, quality, types and characteristics of bioactive substances, technologies of cultivation of basic vegetable species. Introduce students to the possibilities of processing, storing and storing vegetables.					
Conditions for enrolling course					
No conditions					
Learning outcomes on a level of a study programme which includes course					
Outcome 2: Interpret soil analysis results and optimize pedological soil properties. Outcome 4: Determine the economically significant grapevine pests and implement preventative and curative methods of plant protection.					
Expected learning outcomes on a level of a course					
<ol style="list-style-type: none"> 1. Identify types of vegetables, Latin names, family affiliation, and seeds of selected vegetable species. 2. Assess the quality and health and nutritional value of vegetables based on their characteristics. 3. Plan crop rotation in vegetable growing. 4. Choose the cultivation conditions and technologies of the selected species and assortments and plan crop rotation. 5. Interpret the manner of keeping and storing vegetables. 					
Content of a course					
Importance and position of vegetable growing in agriculture. Improvement possibilities of vegetable production in Croatian agriculture. Requirements needed for setting up economy of vegetable growing. Vegetables and nourishment. Parting of vegetables. Propagation of vegetable crops. Factors of fructification. Deciding on technological ripening of vegetables. Influences of outdoor vegetative factors on growing of vegetable crops. Phytohormones and growth inhibitors in vegetable growing. Characteristics of soil for vegetable-growing and tillage practices. Soil as substrate in vegetable production. Use of soil analysis in determining doses of fertilizers. Dressing and fertilizers. Systems of plant production in vegetable growing. Basics of vegetable protection. Picking, packing and transportation of vegetables. Protected areas. Irrigation of vegetable crops. Technical procedures of seeding, planting and picking vegetable crops. Growing of vegetable varieties according to basics of botany, biochemistry, physiology, feeding, general production and plant protection.

Comments					
Students' obligations					
Grading, evaluation and monitoring of students' work continuously during lectures and exams					

Grading is based upon evaluation of course's learning outcomes' adoption. Grading is performed continuously during lectures and/or during exam, in compliance with the provisions of Regulation on the assessment of students.

Continuous check-up:

Outcomes	Pre-exam I	Pre-exam 2	Test	Threshold	Max
Outcome 1			20	10 %	30 %
Outcome 2	25			12,5%	25%
Outcome 3			15	7,5%	15%
Outcome 4		20		10%	20%
Outcome 5		10		5%	10 %
Percentage of ECTS	1	2	1	-	-
Total	25%	40%	35%	50%	100 %

A student has passed the exam if he has acquired a percentage of credits for each learning outcome higher or equal to defined threshold.

Exam term:

Outcomes	Written exam	Oral exam	Max
Outcome 1	10	20	30 %
Outcome 2	25		25 %
Outcome 3	8	7	15 %
Outcome 4	20		20 %
Outcome 5	10	0	10 %
Percentage of ECTS	3	1	
Total	73 %	27 %	100 %

A student has passed the exam if he has acquired a percentage of credits for each learning outcome higher or equal to defined threshold.

Grading:

A student has passed the exam if he has acquired at least 50% of anticipated credits of a specific learning outcome.

If a student has passed learning outcomes of all courses, the accomplished credits (percentages) of all passed learning outcomes are being added, while the final grade is defined upon following table:

Range of credits (percentages)	Numerical grade	ECTS grade
90,00 – 100,00	Excellent (5)	A
75,00 – 89,99	Very good(4)	B
60,00 – 74,99	Good(3)	C
50,00 – 59,99	Sufficient (2)	D
0,00 – 49,99	Insufficient (1)	F

Obligatory literature

1. Internal teaching materials
