SOFTWARE DEVELOPER JAVA – Software Realization (f/m/d)

AT OUR SITE IN FRIESACH NEAR GRAZ OR GRAZ

The **SSI SCHAEFER group** is the world's leading solutions provider of modular warehouse and logistics systems, employing a workforce of over 10,500 people at its international subsidiaries and production sites.

The IT powerhouse of the group, **SSI SCHAEFER IT Solutions**, is the ideal partner for analyzing, visualizing, and optimizing your intralogistics processes.

With over **1,100 software experts**, we develop customer-oriented, individually tailored intralogistics solutions.

YOUR RESPONSIBILITIES

- Implementing the exciting intralogistics projects of our renowned international customers as part of a highly qualified team.
- Working on the conception and design of state-of-the-art logistics software solutions.
- Supporting the creation of logistics process analyses and customer workshops.
- Adapting our standard software to the individual needs of our customers.
- Developing manual and automated software solutions independently.
- Software testing, including bugfixing, as well as software implementation at the customer's site.

YOUR BENEFITS

In addition to an exciting and versatile range of duties, we also offer our employees the following benefits:

- | | |
|---|---|
|  Family-owned company |  Comprehensive health care package |
|  Job security |  Lunch allowance |
|  Healthy growth |  Flexible working hours |
|  High level of creative freedom |  Funded professional development program |
|  Staff discount |  Buddy system |
|  Numerous staff events |  Free parking |

The minimum salary for this position according to the Collective Agreement is € 2,556.-- for 38.5 hours/week. However, we offer a competitive salary depending on relevant professional experience and qualifications.

YOUR SKILLS AND

- Degree-level technical qualification in the fields of computer science, telematics, software development, etc.
- Some initial relevant professional experience in software development (object-oriented programming) would be advantageous
- Good knowledge of object-oriented programming (e.g. Java) and basic knowledge of databases (Oracle or MS SQL)
- Familiar with UNIX / LINUX or Windows operating systems
- Good command of English and willingness to travel abroad (approx. 30-50%)
