About CloudSense Graduate Programme

The CloudSense Graduate Programme is dedicated to fresh graduates seeking to launch their career in IT.

The programme offers a 12 month developmental experience, equipping graduates to tackle complex business challenges in a global environment as part of the Salesforce ecosystem.

During the programme, participants will have the opportunity to gain unique hands-on experience of working in a dynamic environment with a range of exciting international clients. Following a structured onboarding plan whilst working with real business solutions, our graduates will develop a range of technical and interpersonal skills, developing a deeper understanding of our business.
